

Invitation

**Youth
Ambassador
Network**

Dear participants/ speakers,
As the 2026 Wilton Park Youth Ambassador Network (WPYAN) cohort at the University of Nottingham, we are delighted to invite you to join us for a Wilton Park-style dialogue on:

Technology-Facilitated Gender-Based Violence: The Rise of AI and Emerging Image-Based Threats to Women

**Thursday,
3pm – 6pm**

November

12
2026

**Trent Building,
Senate Space
University of
Nottingham
Nottingham, NG7
2RD**

**RSVP Before
October 29, 2026**

**Youth
Ambassador
Network**

ABOUT THE DIALOGUE

What is Wilton Park?

Wilton Park convenes policymakers, experts and emerging leaders from a wide range of backgrounds to find solutions to pressing global challenges. In 2025-26, Wilton Park hosted over 3,200 participants from 151 countries. Through the Wilton Park Youth Ambassador Network, we have experienced the value of open, inclusive and policy-focused dialogue in addressing complex global issues.

About this dialogue

This Wilton Park-style dialogue will explore how artificial intelligence and emerging technologies are enabling new forms of technology-facilitated gender-based violence, particularly through the exploitation and manipulation of women's images.

The dialogue will bring together students, academics and staff to move beyond awareness-raising and identify practical, community-driven measures that universities can take to prevent harm, strengthen digital safety and support those affected.

What will we explore?

- How AI is changing the nature and scale of image-based abuse
- The impact of technology-facilitated gender-based violence on women and students
- The responsibilities of universities, platforms and wider communities
- Practical approaches to prevention, reporting and support
- What meaningful change could look like within the university community
