## Recent additions to the hoverflies (Diptera, Syrphidae) fauna of Latvia

SERGEY YU. KUZNETZOV & NATALIA V. KUZNETZOVA

Kuznetzov, S. Yu. & N. V. Kuznetzova. 1996. Recent additions to the hoverflies (Diptera, Syrphidae) fauna of Latvia. *Int. J. Dipterol. Res.*, 7(2): 87—93.

A new checklist of the Syrphidae found within the present borders of Latvia, which comprise 71 genera and 291 species are given; of these 9 species are new to the Latvian fauna.

S. Yu. Kuznetzov, Zoological Institute, Russian Academy of sciences, 199034, St.Petersburg, Russia.

*Key words:* Diptera, Syrphidae, Latvia, checklist.

### Introduction

Latvia has traditionally been a particularly well recorded region for Syrphidae with some major Latvian collectors, Z. D. Spuris, N. V. Kuznetzova, and S. Yu. Kuznetzov, collecting heavily in the area (cf. Spuris, 1956; Kuznetzov, 1982, 1983, 1984, 1985, 1986a, 1986b, 1987a, 1987b, 1987c, 1987d, 1988a, 1988b, 1989a, 1989b, 1992a, 1992b 1993a, 1993b; Kuznetzov & Kuznetzova, 1984). Over the past few years hoverflies recording in Latvia has continued and the species list now stands at 291. A checklist of Latvian hoverflies is given below.

### Species previously unrecorded in Latvia

During 1990—1995 fieldwork by S. Yu. Kuznetzov, N. V. Kuznetzova and especially D. S. Kuznetzov, yielded a number of species previously unrecorded in Latvia:

*Paragus finitimus* Goedlin de Tiefenau, 1971: 1 ♂, Inčukalns, 30.VI.1992 (S.Yu. Kuznetzov leg.); 1 ♂, 1 ♀, Inčukalns, 14.VI.1995 (D. S. Kuznetzov leg.), rare.

*Par. majoranae* Goedlin de Tiefenau, 1971: 2 ♂, Inčukalns, 2.VII.1994 (D.S. Kuznetzov leg.), rare.

*Platycheirus octomaculatus* (von Roser) [= *P. europaeus* Goedlin, Maibach & Speight]: 1 ♂, Inčukalns, 26.VI. 1992 (S. Yu. Kuznetzov leg.); 4 ♂, 3 ♀, Inčukalns, 29.VI.—7.VII.1992 (S. Yu. Kuznetzov & N. V. Kuznetzova leg.), uncommon.

*P. occultus* Goedlin, Maibach & Speight, 1990: 1 ♂, 1 ♀, Inčukalns, 12.VI.1994, 2 ♂, 3 ♀, 22—25.VII. 1995 (D. S. Kuznetzov leg.), uncommon.

*Melangyna lucifera* Nielsen, 1980: 1 ♂, 1 ♀, NO Kiševers, Klipinas, 25.IV.1990, Salix sp. (S. Yu. Kuznetzov leg.), very rare.

*Sphaerophoria bankowskiae* Goedlin, 1989: 1 ♂, 30.VII.1995 (D. S. Kuznetzov leg.); very rare.

*S. fatarum* Goedlin, 1989: 1 ♂, Inčukalns, 2.VI. 1994, 2 ♂, 2.VII, 23.VIII.1995 (D. S. Kuznetzov leg.), uncommon.

*Xanthogramma stackelbergi* Violovitsh, 1975: 1 ♂, 1 ♀, Inčukalns, 25.VI.1992 (S. Yu. Kuznetzov leg.), rare.

*Eristalis picea* (Fallén, 1817): 1 ♂, 1 ♀, NO Kiševers, Klipinas, 8.VI.1988, Ranunculus sp, (S.Yu. Kuznetzov leg.); 1 ♂, Inčukalns, 12.VI.1992 (S.Yu. Kuznetzov & N.V. Kuznetzova leg.), very rare.

Voucher specimens for all species are held at the author collection and at the Zoological Institute of the Russian Academy of Sciences.
